COUNTY CONTRACT NO: 17-02

BIDS OPEN: <TBD>

County of Siskiyou Department of Public Works is in the process of preparing plans and special provisions to solicit bids for the construction of slide repairs at Milepost 5.76 on Salmon River Road in western Siskiyou County. This notice is being provided for informational purposes only so that interested contractors may become familiar with the project in advance of advertising. Due to the emergency nature of the repairs, the County is interested in constructing the majority of the stabilizing repairs before the end of the year. Depending on weather, there may be the need for a winter suspension to allow for paving to be placed under more favorable conditions in the spring.

In general, the slide repair work is expected to include:

- Installation of a soldier pile and lagging retaining wall with waler beam and single row of ground anchor tiebacks;
- Embankment reconstruction including placement of a drainage blanket and lightweight cinder material for retaining wall backfill;
- Trench drain and other storm drain system repairs;
- Roadway pavement section including aggregate base and hot mix asphalt paving;
- Midwest guardrail and terminal section;
- Traffic stripes; and
- Miscellaneous and ancillary facilities.
