NOTICE OF STAKEHOLDER WORKSHOPS

Sustainable Groundwater Management Act – Shasta Valley Groundwater Basin

Siskiyou County invites you to attend public meetings regarding the Siskiyou County Flood Control and Water Conservation District's efforts to meet the requirements of the Sustainable Groundwater Management Act (SGMA) for the Shasta Valley Groundwater Basin. Signed into state law in September 2014, SGMA requires local agencies to develop Groundwater Sustainability Plans (GSP) outlining long-term management actions for certain basins throughout the state by January 2022, which includes the Shasta Valley Groundwater Basin (Basin). As part of the initial phases of GSP development, we are holding these meetings to inform the public about the current jurisdictional boundaries of the Basin, and to seek public input on the possibility of the District applying to the Department of Water Resources (DWR) to modify the jurisdictional boundary.

During these meetings, the public will have the opportunity to learn and dialogue with regard to (1) the decision making process for basin boundary modification; (2) how residents and water-users throughout the Shasta Valley may be impacted by a modification; and (3) what factors the District will consider and research before making a final decision as to whether or not to apply to DWR for a boundary modification. We encourage the public to attend one of the following meetings to learn more about the process and to provide input, so that the District can make an informed decision and fully consider the best interests of the Shasta Valley community.

You can access additional SGMA information, including maps, prior to the workshops by visiting the County's Natural Resources page at: <https://www.co.siskiyou.ca.us/page/natural-resources>. If you have any questions, or are not able to attend but would like to provide comments, please feel free to contact Matt Parker at (530) 842-8019 or at mparker@co.siskiyou.ca.us.
