Project Title: City of Weed Water System Resiliency Project

Project Location – City of Weed Carrick Well Site, Mazzei Well Site, Church Street, East and West Lincoln Avenues, Woodridge Avenue, and South Davis Avenue.

Project Location – City: City of Weed

Project Location – County: Siskiyou

Description of Nature, Purpose & Beneficiaries of Project:

Water System Resiliency Project

FILED

Siskiyou County

JUN 27 2024

LAURA BYNUM, CLERK

ENDORSED-W. WINNINGHA
Deputy Clerk

Name of Public Agency Approving Project: City of Weed

Name of Person or Agency Carrying Out Project: City of Weed

Exempt Status:

Categorical Exemption CEQA Reference §15302 (Class 2-Replacement or Reconstruction) and §15303 (Class 3-New Construction or Conversion of Small Structures) of the CEQA Guidelines.

Reasons Why Project Is Exempt

The proposed project is supported in part by a Class 3 exemption. As documented below, no evidence has been found to suggest that the project location is particularly sensitive. Likewise, the project is not expected to affect an environmental resource of hazardous or critical concern. Therefore, the Class 3 exemption is applicable to the proposed project.

The proposed project involves improvements to the City's water system infrastructure. There are also waterline improvements planned in conjunction with another project south of the proposed improvements on South Davis Avenue; however, the waterline improvements for the other project are planned to be completed in 2024, prior to commencement of the improvements for the proposed project. There is also a similar project addressing water system recovery efforts immediately north of the improvements on West Lincoln Avenue and Church Avenue.

Although construction equipment for these projects may pass through the same routes, construction traffic for the projects is expected to be minimal on a daily basis. In addition, traffic control is required for any work conducted in the public road ROW. None of the projects would result in an increase in capacity, and no long-term cumulative impacts would occur. Therefore, the proposed project's impacts would not be cumulatively considerable.
